This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

NOTICE.

THE MINERAL STATISTICS for 1867 continue to show a steady increase in the production of Coal. Our Collieries produced during the past year more than 104,000,000 tons of Coal; and, doubtless, but for the prevailing manufacturing and commercial depression these figures would have been considerably enlarged. The Tables of our Coal Exports, which are given this year in much detail, and the movements of Coal generally will place in a clear light the important nature of this National industry.

The Returns of the Production of Ores from our Mines are associated with such information respecting our Imports of the Metals and their Ores from other countries, as will distinctly show the value of each Mineral industry at the present time.

Every effort has been made to render this issue of the MINERAL STATISTICS of the UNITED KINGDOM as complete as possible, and some new features in its arrangement will, it is thought, render this publication still more useful as a book of reference upon all matters connected with the great Mineral industries of the country.

RODERICK I. MURCHISON,
Director General.

September 1868.

INTRODUCTION.

THE publication of the MINERAL STATISTICS for 1867 has been delayed several weeks beyond the period at which they have in former years been issued. This has been quite unavoidable, since it has not been possible to obtain some of the returns at an earlier period.

It must not be forgotten that every return which appears in this volume is a perfectly voluntary contribution to it. The compiler is therefore entirely dependent on the convenience and the inclination of the Mineral producer.

There has not been any unwillingness, in any instance, to give the information required, but certain causes connected with the unsettled state of the commercial world have interfered with that promptness of reply which have usually attended my applications.

The returns from the Lead Mines have been delayed from another cause. Owing to the extreme dryness of the season it has, in many cases, been impossible to prepare the Lead Ores raised last year for the market until within the last few weeks.

Without any further remarks, I submit with much satisfaction the following results of my inquiries, which will be found, I believe, to be as nearly correct as it is possible to obtain them.

GENERAL SUMMARY of the MINERALS raised and METALS produced in the UNITED KINGDOM of GREAT BRITAIN and IRELAND in 1867.

MINERALS.

—	Quantities.	Value.
	Tons.	£
COAL	104,500,480	26,125,145
IRON ORE	10,021,058	3,210,098
TIN ORE	13,649	694,734
COPPER ORE	158,544	699,693
LEAD ORE	93,432	1,158,066
ZINC ORE	13,489	41,340
IRON PYRITES	116,889	67,453
GOLD QUARTZ	3,241	5,320
NICKEL ORE	2	14
ARSENIC*	2,255	4,112
GOSSANS, &c.	5,482	5,808
WOLFRAM	10	62
MANGANESE	808	3,232
BARYTES	11,107	7,807
COPROLITES	37,000	70,300
SALT	1,394,939	836,963
CLAYS, *fine* and *fire*	1,179,300	589,650
Earthy Minerals not returned (*estimated*)	—	650,000
Total value of the Minerals produced in the UNITED KINGDOM		£34,169,797

* Partly *estimated*.

Other MINERALS, not smelted, SALT, CLAY, &c. - - - -	2,167,934
	£43,480,092

It will be seen that this year the distribution of British Coal to all parts of the world has been given in great detail, and the movements of Coal at home are shown as far as information on this point could be obtained.

At the same time as I find myself bound to offer an explanation of a delay which I exceedingly regret, I feel I have a duty to perform, in thanking equally the miners, metallurgists, and manufacturers, with the directors and officials of the Railway and Canal Companies for the assistance, often at much cost of time, which they have liberally and readily given, and without which it would not have been possible to have secured the present state of completeness for this record of the progress of the most important Mineral-producing country in the world.

ROBERT HUNT, F.R.S.,
Keeper of Mining Records.

Mining Record Office,
Museum of Practical Geology,
Jermyn Street, London,
September 21st, 1868.

MINERAL STATISTICS

OF THE

UNITED KINGDOM OF GREAT BRITAIN AND IRELAND

FOR THE YEAR 1867.

PART I.

METALLIFEROUS MINERALS.

TIN.

Smelters' Returns.

The Produce of the Mines and Streams of Cornwall and Devonshire, according to Returns obtained from the Smelters, for the year ending 31st December 1867, was—

Tin Ore (*Black Tin*), 13,649 Tons, Value £694,734.
Metallic Tin (*White Tin*), 8,700 Tons, Value £799,203.

Stannary Returns.

The Produce of the Tin Mines and Streams of Cornwall and Devonshire which have paid Dues to the Stannary Court for the year ending the 25th December 1867.*

No. of Mines.	Mining Districts.	Tin Ore.				Value.		
	CORNWALL.	Tons.	cwts.	qrs.	lbs.	£	s.	d.
24	Western District	2,417	2	2	3	125,975	12	10
64	West Central District	7,426	7	1	18	363,596	8	2
8	East Central District	975	15	1	2	46,961	1	8
3	Eastern District	29	4	3	3	1,473	16	8
15	Sundry Mines	140	0	0	0	7,230	17	7
3	DEVONSHIRE.	78	8	0	14	4,137	10	2
117	Total	11,066	18	0	12	549,375	7	1

Tin Ore (*Black Tin*), 11,066 Tons, Value £549,375.
Metallic Tin (*White Tin*), 7,296 Tons, Value £670,228.

* It should be understood that the difference between the *Stannary* and the *Smelters'* return arises from the circumstance that the dues have not been paid upon all the ore raised to the end of the year, from all the mines.

ZINC.

The total quantity of Zinc ores of which returns have been obtained, principally *Sulphide of Zinc* (Black Jack), from British Mines in 1867 was

13,489 tons 8 cwt. 0 qrs.

The value of this ore being estimated at about

£41,340 11*s.* 11*d.*

The produce of Metallic Zinc being about

3,750 tons 9 cwt.

Which quantity, computed at £21 5*s.*, the average market price of Zinc for the year would give

£79,693 10*s.* 0*d.*

Other Works where COPPER is extracted from PYRITES :—

Allen and Sons, Newcastle.

Widnes Metal Company, Widnes, Lancashire.

Lancashire Metal Company, do. do.

Newton Heath Reduction Company, Miles Platting, Manchester.

Runcorn Soap and Alkali Works, Runcorn, Cheshire.

Old Quay Smelting Company, do. do.

The Goole Alum and Smelting Company.

The Stafford Smelting Company, Oldbury.

British Metal Extracting Company, Glasgow.

PYRITES IMPORTED into the Port of LIVERPOOL from 1859 to 1867.

FOREIGN.

1867.

PIG IRON MANUFACTURE.

IRON ORE.—The total quantity of IRON ORE raised in the United Kingdom, as shown in the preceding Returns, amounted to

10,021,058 tons 9 cwts.

the estimated value of which was £3,210,098 0 4

FOREIGN ORES imported, 86,568 tons.

Total quantity of IRON ORE converted into PIG IRON 10,107,626 tons.

FURNACES.—The number of Furnaces in blast were 551½.

PIG IRON produced,—

	Tons.
In ENGLAND	2,810,946½
„ WALES	919,077
„ SCOTLAND	1,031,000
Total production of Pig Iron in Great Britain	4,761,023

This quantity, estimated at the mean average cost at the place of production, would have a value of—

£11,902,557.
